

# Learning Resource Catalogue

(DLOCat)

By  
Prof Peter Harris  
Convener  
Medical Education Working Group

## DLOCat: Update

- Twenty-five new digital learning resources have been added this year
  - ***24 medical scenario videos***
    - Developed by A/Prof Patrick McNeil's group at UNSW
    - Topics include: Thalassaemia, Eczema, Crohn's disease, Inflammatory bowel disease, Chronic skin disease, Parkinsons disease, Tuberculosis, Influenza, HIV/AIDS, Cardiovascular disease, Reproduction, Menopause and Immunisation
  - ***Lego Team Building Exercise***
    - Created by Lesley Bainbridge at UBC
    - Demonstrates the complexities involved in team-based work environments

## DLOCat: Update

- ❑ DLOCat now contains a total of **104** records of digital learning resources for health professional education

University	Resources provided
British Columbia	1
Hong Kong	1
Lund	8
Melbourne	45
NSW	44
Queensland	5
<b>Total</b>	<b>104</b>

## DLOCat: Plans for 2006

- ❑ Teaching Partnerships
  - We will continue to enter good quality records into DLOCat with keen collaborators (no subscription) - **please volunteer!**
- ❑ Migrate contents of DLOCat into DigiTool (Ex Libris)
  - Solution for the management of digital assets in libraries and academic environments
  - Enables federated searching
