RESTAURANTS AND BARS

Kyo Grill is a new Oriental–fusion gastronomic experience. The Far Eastern design of the restaurant creates a mystical, magical ambience: a spectacular Buddha, measuring almost 20 feet tall and with a weight of 47 tons, floating in the middle of a reflecting pool, and a stairway featuring Buddhist monks give life and form to the restaurant, creating an atmosphere of serenity.

However, such exquisite settings would be worthless without an exotic, sumptuous cuisine that pays homage to the art of eating well. The menu at the Kyo Grill evokes and reinterprets the recipes and flavors of Oriental food.

Enjoy a casual ambience with excellent service and a broad selection of Italian food, as well as our famous wood fired pizzas, all of this complemented by our spectacular wine cellar. If you wish to have a good time in a more intimate environment, Bice offers one private room for up to 30 people and one private wine rack for up to 6 people.
