Model for expanding student participation

- Create local linkages to other professions
- Look for schools with multiple disciplines and link the leaders of each group together
- Have a succession plan within each school/faculty
- Important to choose leaders from other faculties and connect locally, and then share the ideas at the SAC meetings to shape new goals
- Problems – the international aspect – perhaps have a UNMDG4health student network. Keep students involved through the network

Basic Info

Name: UN MDG 4 Health
 Category: Student Groups - General
 Description: In 2000, leaders from 189 countries endorsed the Millennium Declaration at the United Nations Millennium Summit. The Declaration set out a plan to address poverty, inequity, hunger and disease through coordination of global efforts and partnerships: the Millennium Development Goals.
 The 8 Millennium Development Goals represent a unique opportunity to finally end poverty and make a progress in the world's development.
 These goals are achievable, but they are time-bound and the deadline is... (read more)
