

## United Nations Millennium Development Goals (UN MDG) Curriculum Survey

*This survey is designed to identify existing curriculum focused on global health and UN MDGs, gather these curricula resources, and share them among U21 partner institutions. At the UN MDG workshop being hosted by the University of Hong Kong on 1-2 February 2010, we will be working towards preparing a UN MDG module for use by U21 colleagues and your feedback will greatly assist in this development.*

*It would be wonderful if you could forward your completed questionnaire to Lorraine at [ldevitt@unimelb.edu.au](mailto:ldevitt@unimelb.edu.au) by Monday 18 January 2010.*

**Please click on each drop-down menu and choose from the options, or click on the tick-boxes, or write in the text fields. The text fields will expand as you write. You can use the tab key to move from field to field.**

1. We are interested in identifying existing curriculum focused on global health generally, and UN MDGs specifically. Using the grid below, would you please identify whether your department or university offers offer any formal or informal educational opportunities in these areas. (Please select the best response, Yes, No, Unsure)

| Does your department or university offer:                               | Global Health            |                          |                          | UN MDGs                  |                          |                          |
